

**Project Design Phase-II**  
**Data Flow Diagram & User Stories**

Date	11November 2022
Team ID	PNT2022TMID16365
Project Name	Project - A Novel Method For Handwritten Digit Recognition System
Maximum Marks	4 Marks

**Data Flow Diagrams:**

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Example :

**User Stories :**

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
User in Website	Registration	USN-1	User can register for the application by entering Username, email, password, and phone number	Account specific tasks and actions can be performed	High	Sprint-1
	Login	USN-2	Enter the username and password to login	Right account details should be entered	High	Sprint-1
	Dashboard	USN-3	User can view the website		medium	Sprint-2
Core development team	Core function	USN-4	As a user, I can register for the application through G mail	Interface should be user friendly and easy to use	High	Sprint-3
		USN-5	As a user, I can log into the application by entering email & password	User experience should be taken into account	Medium	Sprint-3
		USN-6	Data set collection and processing	Efficient data should be collected	High	Sprint-3
Maintenance team	Maintenance	USN-7	The website should be maintained and the user queries should be as quickly as possible		High	Sprint-4
User in website	Upload the handwritten image	USN-8	User should upload the handwritten images or digits which is processed	The input image should be in proper format	High	Sprint-4
	View output	USN-9	The system detects the digits and displays the output to the user		High	Sprint-4
